JUNIOR PROGRAMS

College Park has been in the business of developing junior tennis players for over 40 years. Today, we have over 1,000 registered players in our programs with goals of succeeding at the high school level and beyond.

Our strong commitment to the development of junior players starts with our beginners and continues with more competitive levels of play. The foundation of strong tennis players is built on athleticism and stroke production; these are the twin focal points of player development. As athletes advance and master these foundations, strength work and competitive strategy are emphasized. We accomplish this development through a mix of both group and private training with an interdisciplinary team of experts. This involves tennis coaching with differing expertise, strength coaching, personal training, tournament consultation, and mental coaching. At CPAC you won't have just one coach, you'll have a team of experts dedicated to your success.

We offer our indoor tennis programs at two locations, College Park Athletic Club East (10 courts, including a 60 ft. court) and College Park Athletic Club West (6 courts).

How Do I Get Started?

STEP 1: CALL FOR AN EVALUATION

Evaluations are required for all players. Please plan on 30 minutes for your skills and fitness evaluation. Call 847-948-5330 to schedule an evaluation.

STEP 2: REGISTER FOR THE APPROPRIATE CLASS

Registration for all classes can be done online or using a CPAC Registration Form at CPAC East or West. All students are required to have a Credit Card, Debit Card, or ACH on file.

STEP 3: SIGN UP AS A CPAC JUNIOR MEMBER

Each session a \$45 Junior Membership is required for all players enrolled in our programs that are 90 minutes or longer. This membership allows you to register for our group classes, take private lessons, and book court time. All active Junior Members can book court time at a 50% discount up to 72 hrs. in advance. Canceled courts within 24 hrs of the reservation will result in a \$20 fee. Non-members playing with a Jr. Member will be assessed a fee in addition to their share of the court time. Junior Membership also includes access to our Proteus Assessment Program, a cutting edge technology that measures athletic performance and potential limitations. CPAC is the first tennis program in the world with Proteus. Junior Membership will be added upon registration for each successive session and will remain active throughout each session of active enrollment.

JUNIOR PROGRAMS

Junior Court Time

Junior members currently enrolled in the CPAC program will receive half-off junior court time privileges (limit one hour booking per reservation). Bookings must be made within 72 hours of the time of play. Junior players not enrolled in a class (and all adult non members) must pay the full court rate. Cancellation fees for junior court time will apply. During the summer, students must be enrolled in CPAC Camps to receive junior court time privileges.

Auto-Reregistration

Once you are registered in a class, you will automatically be given a spot in future sessions. For your convenience, the charge for the next session will post to your account on the registration deadline, at which point you will be able to pay online, pay at CPAC East or West, or pay with your Credit or Debit Card on file. You will receive advanced notification and have ample time to withdraw from the next session prior to the registration deadline. (For example: If you are registered for Session 1, you will automatically be registered for Session 2 three weeks prior to the Session 2 start date unless you choose to withdraw). Withdrawal requests must be submitted directly to the program director prior to the auto-registration deadline. If you choose to withdraw, your spot will be given to players on our wait lists.

Make-Up Classes

One make-up per session is available for students who give instructors advanced notice of missed classes, and must be completed prior to the end of each session. Please contact Rachael White for QuickStart, Donna Marks for JDP, Maor Zirkin for Tournament Training, Frank Chen for TAP, Chris Nowak for Super Excellence and Chris Thomas for High Performance.

All class times, locations, and prices are subject to change. For the most up to date information please contact Jean Erasmus - JeanE@cpacweb.com - or your program director.

The purpose of the program is to create a basis for general strength, increase speed and agility, and improve mobility.

Abs, Buns, Cardio (ABC)

Sunday 9:00am - 10:00am + Tuesday 9:00-10:00am

ABC is catered specifically to those who want to focus on improving their body composition and get ready for summer. This class is paced to elevate the heart rate through intervals of cardio followed by ab circuit workouts and hip activation exercises. Increasing cardiovascular performance will help through daily activities as well as sports performance, with an additional emphasis on developing the abs and hips to prevent back pain.

Stretch and Recovery (S&R)

Wednesday 9:00am - 10:00am + Saturday 8:00-9:00am

S&R classes are a great change of pace relative to the hard work put in from the general Adult Athlete and ABC classes.
